

GCUBE INFO — DIGITAL PARTNER

PROPOSAL / LUXURY DIGITAL ECOSYSTEM

BISCHTM Digital Ecosystem

Phase I — Immersive Brand Foundation & Premium Digital
Experience

PREPARED FOR

Val Tkachenko
Geothermal Minerals LLC

PREPARED BY

Gcube Info
gcubeinfo.com

TIMELINE

10–12 Weeks
Premium Launch

Three things most agencies miss *in this brief.*

We read your brief fully — all 17 sections. What stood out wasn't what's easy to build. It's what's easy to get wrong.

O1

THE STORY IS THE BRAND

The founder story and mineral origin aren't support content. They're the emotional backbone of the entire experience.

O2

PHASE 1 MUST FEEL COMPLETE

The first launch cannot feel temporary. It needs to feel like a fully formed luxury world from day one.

“BISCH™ is not just a website project. It is the beginning of a luxury wellness ecosystem.”

Luxury isn't created by adding more.
It's created by knowing what to leave out.

WHO WE ARE

A boutique digital agency built *for exactly this.*

We build premium digital ecosystems for luxury, wellness, and modern commerce brands.

50+

PROJECTS DELIVERED

40+

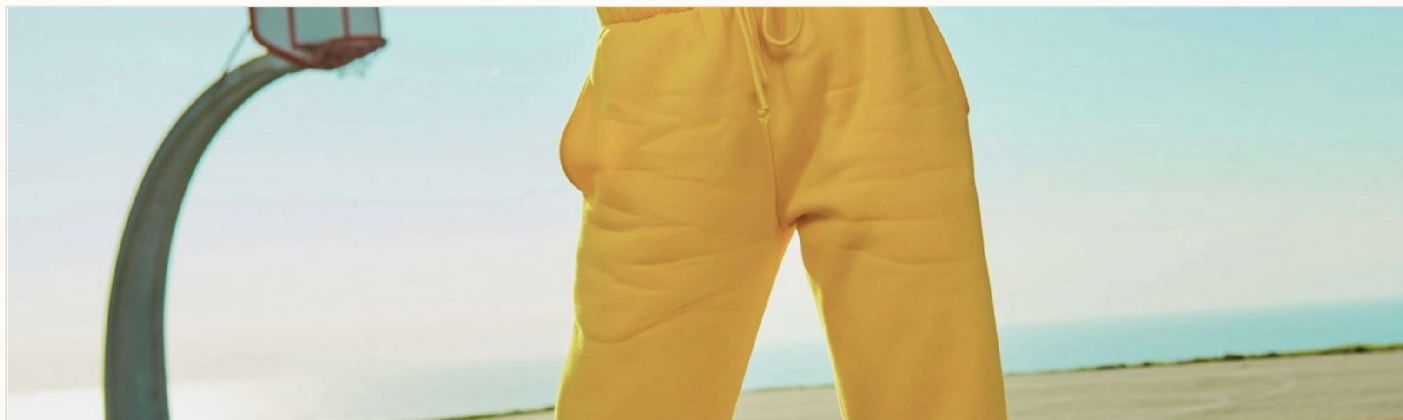

TECHNOLOGISTS

8+

YEARS OPERATING

SELECTED WORK

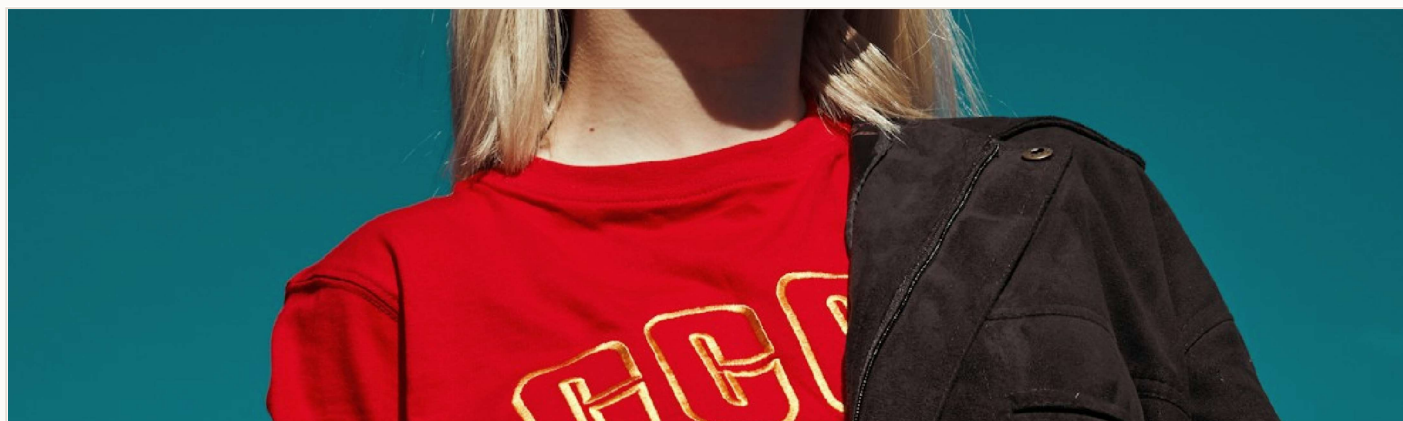

Luxury, wellness & *headless commerce*.

FASHION COMMERCE

LESTRANGE London

Minimal editorial ecommerce with calm premium storytelling.

WELLNESS BRAND

Rosephoria

Beauty and wellness commerce with immersive visual direction.

Built for premium storytelling *and future expansion.*

FRONTEND

Next.js

Fast, premium frontend architecture designed for cinematic layouts and scalability.

COMMERCE

Headless Shopify

Luxury commerce foundation designed for future international growth.

CONTENT

Headless CMS

Editorial publishing system for journals, rituals, ingredients and collections.

MOTION

Motion System

Refined cinematic transitions with performance-first execution.

TIMELINE

10–12 weeks to a *premium launch*.

WEEKS 1–2

Discovery & Direction

Brand immersion, architecture planning, visual direction, and design system foundations.

WEEKS 3–5

Homepage Design

Complete homepage experience across all breakpoints with motion direction.

WEEKS 6–8

Development & CMS

Frontend implementation, CMS integration, responsive QA and animation refinement.

WEEKS 9–12

Launch & Optimisation

Performance optimisation, content integration, QA, deployment and launch.

Phase 1 investment — *premium foundation.*

This proposal includes strategy, design, frontend development, CMS implementation, motion direction, responsive optimisation, and launch support.

PHASE 1 BUILD

\$18k–\$25k

Final pricing depends on motion complexity, 3D scope, CMS depth and content requirements.

VALIDATION SPRINT

\$3.5k–\$5k

Optional concept sprint before full production — homepage direction, motion prototype and architecture validation.

Payment milestones can be structured across kickoff, design approval, development completion and launch.

How we *actually* work.

O1

IN-HOUSE TEAM

No subcontractors. The same team that scopes the project builds and launches it.

O2

WEEKLY DEMOS

Every Friday includes real progress, working builds and transparent feedback loops.

NEXT STEP

A short call is the easiest way forward.

We'd love to walk through the proposal, answer questions specific to BISCH™, and discuss the fastest path toward launch.
